

UNICORN GAMING DISPLAY

Our Gaming Displays have a wide range of screen sizes, shapes and colors, making it highly customizable to match the design of the gaming area.

Screens are available in either single or double sided LED panels with an option to add LED attract mode lights and toppers (functions for different purposes), while the body can have a finish of matt gold, silver aluminium or racing black giving it an elegant look. It is compatible with third-party shoes or standalone Baccarat table.
